AUTOMATE YOUR SAFETY INSPECTIONS AND COMPLIANCE ACTIVITIES WITH i-Safe™ 3.0

i-Safe™ 3.0
INTELLIGENT SAFETY SYSTEM

Capital Safety is a global company solely dedicated to fall protection and rescue. Our focus is razor sharp. And it continually drives us to design and manufacture the safest possible height safety gear.

We understand the industries we serve and listen to the workers in the field. We employ the best engineers to create innovative solutions and patent the products that keep workers safe at heights around the world. Capital Safety has the best quality and largest range of fall protection products in the industry. But we're more than a product company. We take an innovative approach in bringing our products to the field. We have created international partnerships and a vast network of authorized distributors, certified installers and service centers. We offer on-site and in-house training. And we're ISO 9001-2000 certified for customer service, as well as manufacturing and engineering.

Capital Safety is one of the world's leading manufacturers of fall protection and rescue equipment, with decades of experience and a legacy of innovation. Look for complete solutions in our extensive line of DBI-SALA® and Protecta® products.
THE MOST ADVANCED WAY TO MANAGE YOUR SAFETY INSPECTION PROGRAM AND ENHANCE COMPLIANCE

KEY BENEFITS

EASY IMPLEMENTATION
DBI-SALA® fall protection products are delivered from the factory already RFID-enabled. Each built-in i-Safe™ tag is pre-registered into the i-Safe™ database with photos, model type and manufacturing information.

SAVES TIME AND MONEY
Reduces time by over 35% compared to manual paper-based inspection and asset management systems.

EASY TO USE
Inspection orders, findings and asset status are easily uploaded and tracked on the database. Reports, alerts and follow-up activities are automatically generated making information easily communicated and accessible by your team anytime.

IMPROVES COMPLIANCE
Improved compliance occurs by providing consistent and proper safety inspections, safety references and up-to-date inspection logs.

IMPROVES INVENTORY CONTROL
The asset management capability allows you to track the location and status of your safety equipment at multiple locations.

FLEXIBILITY AND CUSTOMIZATION
The flexibility and operational benefits are greatly enhanced by the wide range of operations, management and key performance reports.

DURABILITY
RFID tags are also protected in a hard plastic covering which provides greater ruggedness and reliability even in the harshest of work environments.
MULTIPLE SYSTEM VERSIONS TO MEET YOUR NEEDS

**DBI-SALA® HOSTED**

**WEB “LIMITED” EDITION**

- i-Safe™ data resides on DBI-SALA® Data Server and Information Portal
- **Features:**
  - Ability to track 250 assets
  - DBI-SALA® product only
  - Pre-defined Fall Protection inspection templates only
  - 5 Standard reports
- **Typical Customer:**
  - Smaller organizations
  - Typically only one location
  - No formal internal IT support

**WEB “PRO” EDITION**

- i-Safe™ data resides on DBI-SALA® Data Server and Information Portal
- **Features:**
  - Ability to track an unlimited number of assets (both DBI-SALA® and other assets)
  - Multiple pre-defined templates
  - Custom templates
  - 10 Standard reports
  - Some customization allowed
  - Trigger based email alerts
  - Multiple handheld computers and PDA types supported
  - Additional reports, training, and support
- **Typical Customer:**
  - Any size organization
  - One to multiple locations
  - No formal internal IT support

**END-USER HOSTED**

**“DESKTOP” EDITION**

- i-Safe™ data resides on end-users personal computer
- **Features:**
  - Same features as Web “Pro” Edition
  - Custom templates
  - 10 Standard reports
  - Additional customization available
  - On-site training available
- **Typical Customer:**
  - Any size organizations
  - One location
  - Supported by some in-house IT expertise

**“NETWORK” EDITION**

- i-Safe™ data resides on end-users centralized server
- **Features:**
  - Same features as Web “Pro” Edition
  - High degree of customization available
  - Robust process customization
  - Additional custom reporting available
  - Multiple handheld computers and PDA types supported
  - On-site training available
- **Typical Customer:**
  - Large organizations
  - Multiple locations
  - Supported by in-house IT expertise
USE i-Safe™ RETROFIT TAGS TO TRACK AND INSPECT VIRTUALLY ANY ASSET

As part of the DBI-SALA® commitment to safety innovation, you can now consistently include all of your assets within the i-Safe™ system.

i-Safe™ retrofit tags are available for all brands of harnesses, lanyards, self retracting lifelines or other equipment such as tools, ladders, and fire extinguishers.
SYSTEM OPTIONS
i-Safe™ provides multiple system versions to meet your company’s specific needs. We have versions that can be hosted on our web portal or operated on your own computers or enterprise server.

INSPECTION TEMPLATES
Any kind of activity can be automated including inspections, maintenance/repair activities, audits, etc. Depending on the type of activity, users can record findings, deficiencies, results, etc.

EMAIL ALERTS AND OFFERS
i-Safe™ email trigger mechanisms automatically send emails and alerts to users based on pre-set dynamic queries. This is a very powerful tool that shares information throughout the organization.

REPORTS
i-Safe™ includes an integrated Crystal Reports® engine, therefore all reports can be viewed on the screen, printed, emailed, exported to a PDF document, etc. All of the Crystal Reports® viewer functions are integrated into i-Safe™ 3.0. i-Safe™ 3.0 built-in reports include a wide range of operations, management and KPI (Key Performance Indicator) reports including:

- Inspection reports (e.g. display inspection details)
- Summary reports (e.g. display a list of activities)
- Management reports (e.g. summary of hazards, top 10 hazards, etc.)
- KPI reports (e.g. inspector statistics, workload distribution, etc.)

CUSTOMIZATION
i-Safe™ is customizable, delivering superb value to our customers. We deliver the speed and benefits of packaged solutions along with the advantages of customization designed to meet specialized requirements.

SUPPORT AND TRAINING
On-site, online or remote support and maintenance are available to ensure a quick response to your needs. During the training, attendees receive quick reference guides, user videos and/or other training materials to ensure operating “know-how.”

INNOVATIVE PLATFORM/SOFTWARE
The i-Safe™ Intelligent Safety System is powered by Pervidi™, an advanced technology that has been proven worldwide. With our partnership with Pervidi™ you are ensured a practical and innovative way to manage your safety inspection program and enhance compliance.
